

George Laura Case Joann ~ we will always remember our last phone call at Stratford. They refused to tell me if you were there although I knew you were. I told them if they didn't hand you your cellphone when I would call again within a few minutes, I would be calling the local Sheriff and/or police. I called Joann's cellphone again and she answered. I told her we loved her and how Stratford was not allowing anyone access to her. She made me promise to always keep in touch and that she was scared and not sure what was going on. We told each other how much we loved each other. That was the last time we were able to talk. I pray to God each day for her and that the right thing is done. It is so hard when you live so far away and trust her dear friends who live close to her continue to carry on what is just and right. Who has her cellphone at Stratford? Laura 🙏
